

The Wonderful Progress of Petworth.

place here in a short time.

Extensive building operations are in progress—streets are graded—granolithic sidewalks are laid—water, sewer and gas installed—and signs of progress and improvements are noticeable on all sides. Not less than half a million dollars has been expended in improvements at Petworth, and today this beautiful neighborhood is one of the most desirable residence sections of the city—offering the greatest opportunity ever presented in Washington to those seeking lots for homes at a reasonable price. In fact, Petworth is the only desirable part of the city where you can buy

and we stand ready to build you a house after your own plans—on a lot of your own selection—and sell you the house and lot on the easy monthly payment plan—no more than you now pay in rent.

Come to our office in the Colorado building and let us take you out to see the property in one of our automobiles.

SCHOOL YEAR CLOSES

Thousands of Young People Out for Vacation.

GRADED SCHOOLS TO HOLD FINAL SESSION TOMORROW.

List of Eighth Grade Pupils Advanced to High Schools-Commence-

ment Exercises.

Thousands of youngsters will be made happy tomorrow by the closing of the graded schools of the District for the summer vacation. Until Monday, September 18, there will be no studies and they can rest and play to their heart's content. The commencement exercises of the Central, Eastern and Western High Schools in Convention Hall tomorrow evening will bring the school year to an end, except for a few final meetings of the board of education for the promotion and appointment of

No formality will attend the closing of the graded schools other than the saying of farewells for the summer months. Next year those who have earned promotion will go to the next higher grade, and the pupils from the eighth grade will enter the high schools. About 1,300 little ones will be graduated from the public kindergarten system to the graded schools, and 1,100 pupils will be graduated from the latter to the high schools. Five hundred and fifty-nine will be graduated from the high schools and schools and manual training schools. Many of these will enter the normal school and others will go away to college or enter business life.
